It takes total dedication to embark on such a thankless endeavor as you have with regard to the administration of the project. You should be commended for your youthful enthusiasm for helping Armenians and Armenianism.

Subject: **First J2* found !**

The Armenians have shown the greatest diversity of members of such rare, basal lineages of any localized ethnic group so far. This intriguing phenomenon suggests that the earliest population in which the haplogroup J first arose is well represented in the Armenians. It would be valuable to have more participants from other peoples closely related to them and from the areas surrounding their homeland.

Bonnie Schrack, Administrator of the Y-Haplogroup J DNA Project at Family Tree DNA

Hi Peter

These unusual samples are wonderful for the database. We love them.

Thanks to Peter Hrechdakian who has been seeing to very complete testing for Armenian men which has added considerably to our knowledge of multiple G subgroups, such as L13.

Subject: RE: You have a perfect 37 marker match

Dear Peter--- THANK YOU SO MUCH regarding Ken [Andonian] --- Friday night we talked for an 1 ½ hours; it was great--- he is 77 years old; both of us ended up "doing questions and answers " , and both of us taking lots of notes. I have a new COUSIN(S) he has 3 children and 7 grandchildren --- wow!!!!!--

Thank you very much for notifying me of the fact that Dan Archie Koojoolian and I match exactly on all 37 markers. Wow!!! What an exciting prospect! I have already contacted Dan by email and gave him phone numbers where he can reach me. In this connection, I strongly commend you and your co-administrators of the Armenian DNA Project for your untiring efforts to serve fellow Armenians. Abrik!

Subject: RE: J2 - M172, Y -DNA - 12 Market 'Exact Match'

I'm amazed that this gene project produced this result. Sounds like we need to sit down with some good black coffee and paklava.

... I believe that the MD you refer to is my paternal grandfather. I have very few written records and most of my information is leftover oral folk history since all the witnesses are now dead. My father was born in 1916 and grew up in LA, attended UCLA and Harvard Business school. He was a captain in the US Army on the general staff of the Third Army, under General Corlett, and died in February 1945 in the Solomon Islands when Third Army headquarters was overrun by Japanese resistance during post-invasion mop-up activities following the retaking of Guadalcanal by US forces. I was originally christened Henry Gregory Emerson. My mother remarried Barry Stubbs in 1946 and I was adopted and name changed to Gregory Emerson Stubbs. My mother was extremely "closed" about her marriage to my father...perhaps out of concern that her marriage to Barry Stubbs be and remain her "first"..the practical result of this "closure" was that Laura Emerson didn't talk much about my dad and in fact I didn't learn of him until I was about 10 or 12.
